Input Characteristics

| | |
|--------------------------|---------------|
| Input Voltage Range | 100 – 277 VAC |
| Absolute Input Voltage | 90 – 305 VAC |
| Max. Input Current | 0.4A @ 120V |
| Input Frequency | 50/60Hz |
| Power Factor @ Full Load | >0.9 |
| Efficiency | >87% |
| THD @ Full Load | <20% |
| Inrush Current | <10A |
| Standby Power | <0.5W |

Output Characteristics

| | |
|--------------------------|--------------|
| Output Power | 42W |
| Output Current | 150 – 1050mA |
| Output Current Tolerance | ±3% |
| Output Voltage Range | 12 – 40 VDC |
| Percent Flicker | 5% |

Dimming Characteristics

| | |
|------------------|-----------|
| Control Channels | 2 |
| Dimming Protocol | 0/1 – 10V |
| Dimming Range | 1% - 100% |

Environment / Warranty

| | |
|--|----------------|
| Operating Temp. Range | -10 to 45 °C |
| Max. Ambient Temp. | 45 °C (Ta max) |
| Max. Case Temp. | 85 °C (Tc max) |
| Lifetime @ Tc max | 50,000 hours |
| Driver Warranty | 5 years |
| Combined Warranty | 5 years |
| (When combined with compatible Luminus COB + Cuvee LED Driver, contact Luminus for more information) | |

Product Offering

Part number: DMR-AOD038/2-PC1K1-42
DMR-AOD038/2-PC1K1-42-BF

Universal Input (100-277VAC)

Deep Dimming & Flicker-Free

Metal housing with side-feed and back-feed options for direct mount to junction box

Compatible with popular LED Light Source:

- Luminus Tunable White Dual Channel COBs
 - CTM- 9 / 14 / 18 / 22
- Opulent Linear Module
 - CSB1-72G02-6527-90-00
- Inquire about compatibility with other LEDs

116.9 x 62.5 x 27 mm
(side-feed version)

119.9 x 65.2 x 28.2 mm
(Back-feed version)

Mechanical Details

| | |
|--|---|
| Housing Design | Rectangular Metal Case |
| Wire Terminals Connections | Side or Bottom Feed |
| Poke-in Connector (Primary / Secondary) (Recommended Wire Diameter) | Ø 0.5 – 1.0 mm (24-18 gauge) solid wire or tinned stranded |

Certification and Testing

EN 55015:2013+A1:2015

EN 61547:2009

EN 61000-3-2:2014

EN 61000-3-3:2013

EN 61347-1:2015

EN 61347-2-13:2014+A1

UL 8750

CCT Tunable Driver

2 Channels (42W), Universal Voltage with 0/1 – 10V Dimming

DMR-AOD038/2-PC1K1-42 (Side Feed Version)

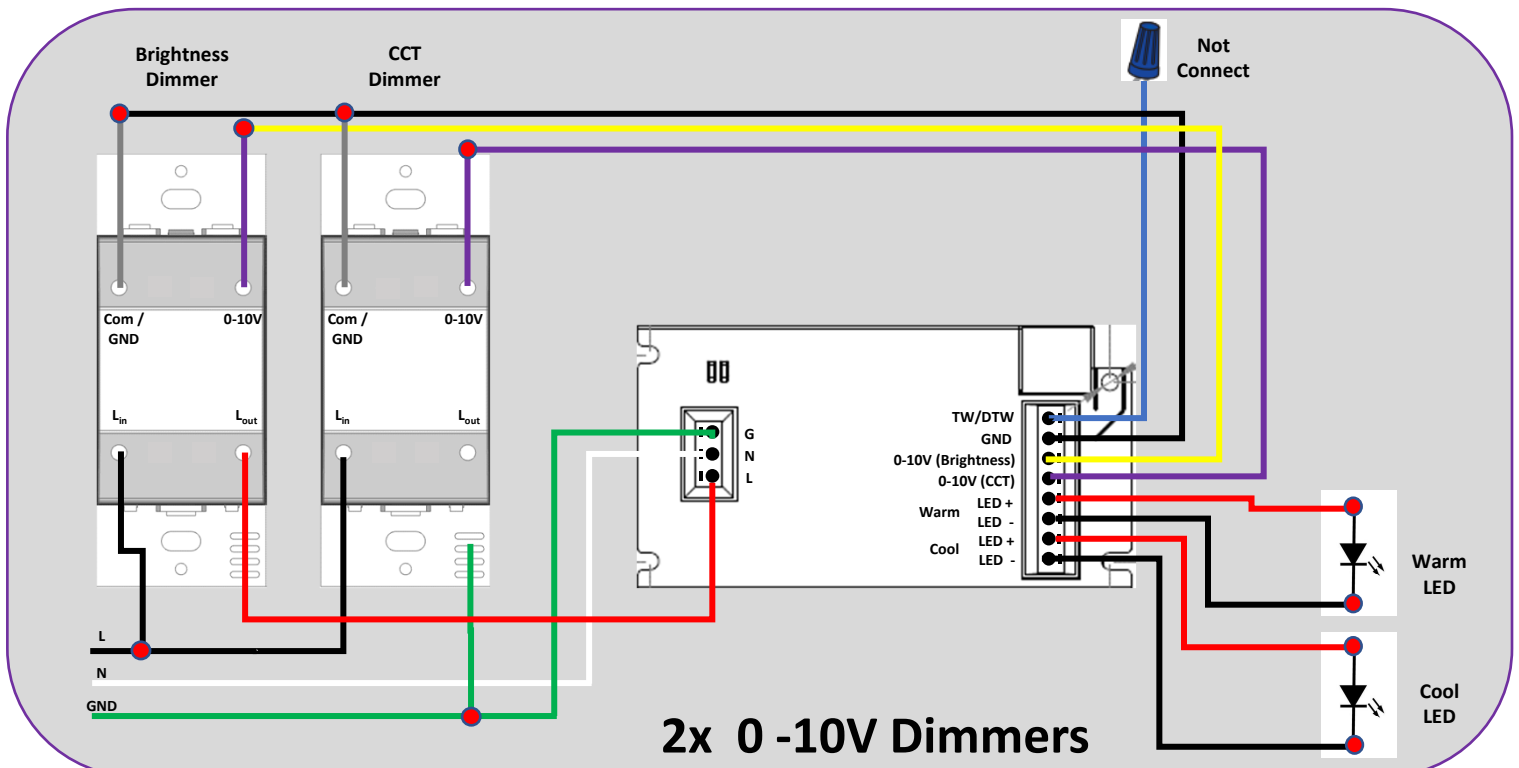

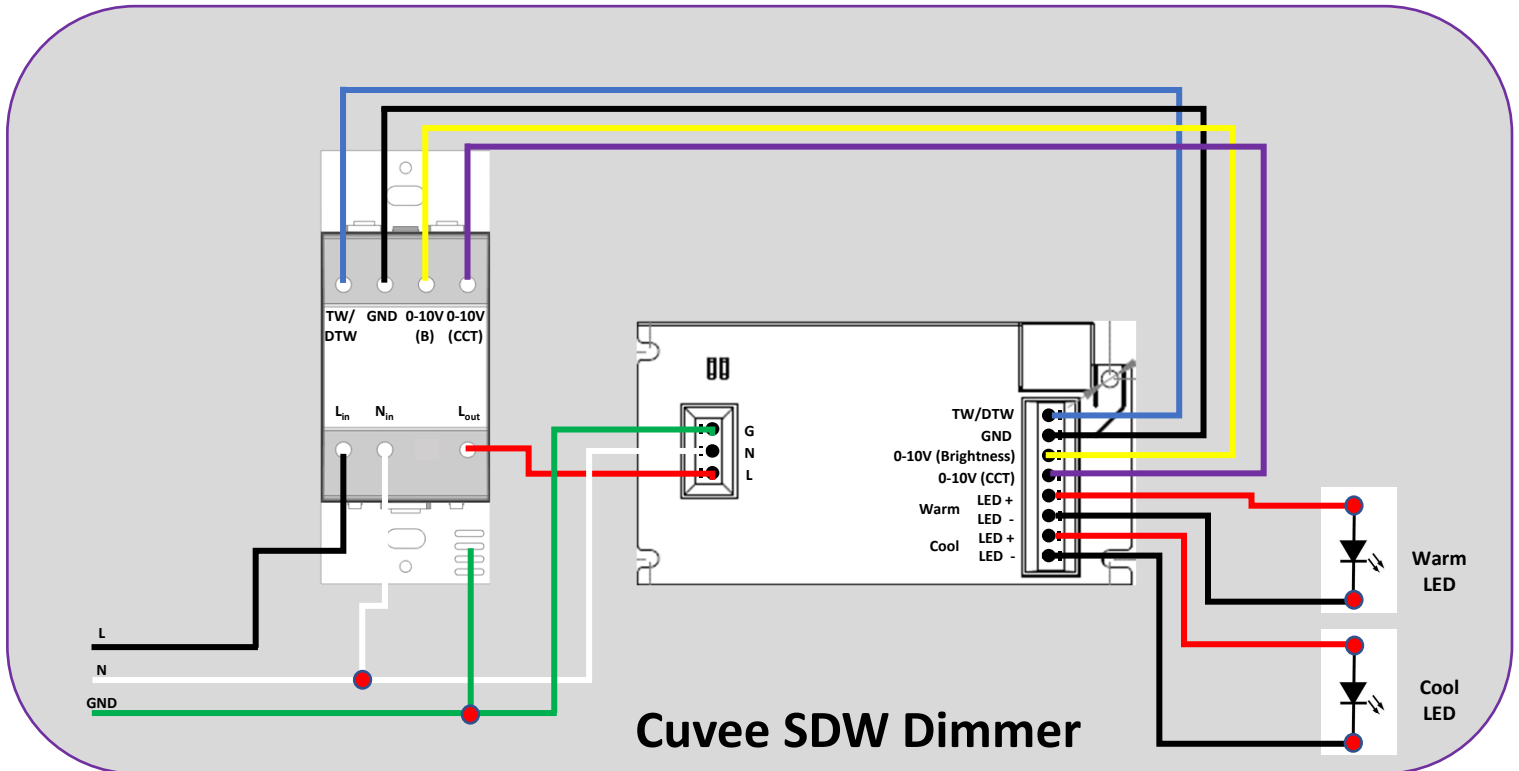

DMR-AOD038/2-PC1K1-42-BF (Back Feed Version)

CCT Tunable Driver

2 Channels (42W), Universal Voltage with 0/1 – 10V Dimming

CCT Tunable Driver

2 Channels (42W), Universal Voltage with 0/1 – 10V Dimming

Programming cable

Programming Cable:

Part Number: DMR-PROG-USB

Programming Parameters

The DMR series can be programmed by inserting the mini-USB plug into the driver and by plugging the USB other end of the cable into a computer. **The driver does not need to be powered on during the programming process.**

When ordering the DEMR series, please make sure you order a programming cable. The part number for the programming cable is "DMR-PROG-USB".

Programming is done by using the Cuvee PROG software, which enables the user to adjust output current from 150mA to 1050mA.

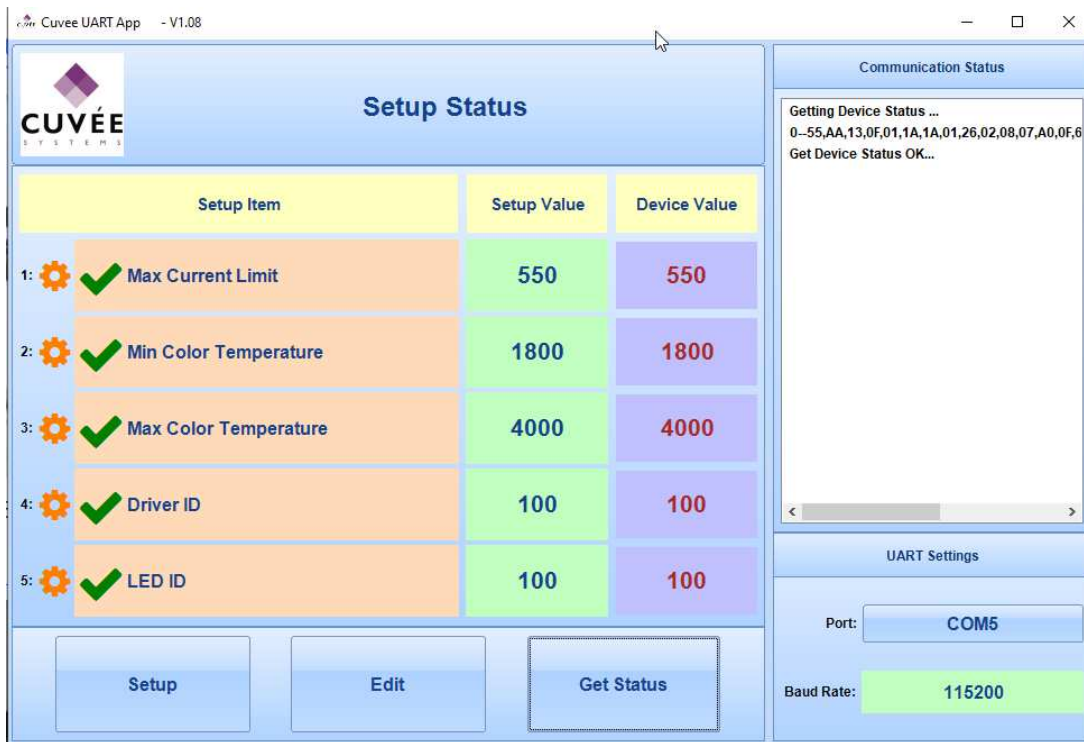

Furthermore, when programming the driver with a computer using the programming cable, you can access the driver's internal data and read / program the following:

| | |
|--------------------------|---|
| Max_Cur | Pre-set driver max total output current <ul style="list-style-type: none"> Min = 150mA Max = 1050mA Step size = 2mA (450 steps) |
| Driver_ID | Record and report driver ID, allow BLE apps to track the driver type and identification |
| COB_ID | Record and report DMR driver connected LED (allow BLE apps to configure and control the LED correctly) |
| CCT_Min / CCT_Max | Record and report DMR driver connected LED COB CCT range (e.g. 4000K – 1800K, 6500K – 2700K) |

CCT Tunable Driver

2 Channels (42W), Universal Voltage with 0/1 – 10V Dimming

Programming Software

| Setup Item | Setup Value | Device Value |
|--------------------------|-------------|--------------|
| 1: Max Current Limit | 550 | 550 |
| 2: Min Color Temperature | 1800 | 1800 |
| 3: Max Color Temperature | 4000 | 4000 |
| 4: Driver ID | 100 | 100 |
| 5: LED ID | 100 | 100 |
